## THE NEW 680i SMARTBOARD

### Lively lessons

The NEW 680i helps you take your students to the heart of learning. Combining a short throw Unifi™ 45 projector and a SMART Board™ 680 interactive whiteboard, the 600i allows you to incorporate multimedia elements, such as videos and interactive demonstrations. The system makes lessons more appealing encouraging active participation.

### Complete control

A convenient, economical tool which has features specifically designed to help you to make the most out of your class time. The system starts up quickly with the push of a button, and the control panel allows you to add and switch between classroom peripherals, such as laptops, DVD players or digital cameras – you don't need to use a remote control. Combining true colour with high levels of brightness and contrast, the 600i provides a clear, crisp image. When you add an optional speaker system, the 600i becomes a complete multimedia centre, creating a focal point where everyone can hear, see and participate. You can also add the height-adjustable wall mount so students of any height can reach the interactive whiteboard or use the SMART STEP.

### Perfect positioning

The projector is located directly above the interactive whiteboard, meaning no complicated wiring or ceiling mounting. Where the projector is placed also reduces the appearance of shadows and prevents any light from shining in your eyes as you work.

**ORDER DURING JUNE FOR ONLY £2,250** exc. VAT

SPEAKERS AND AMPLIFIER CAN BE ADDED FOR £125.00 DURING THIS SPECIAL OFFER PERIOD

## Agile SUPPORT

**Are you fed up of having to book set slots for ICT support and then pay *extra* callout charges when an emergency arises?**

**Why not buy a "bank of hours" and then schedule these in as and when it suits you?**

We know that one size does **NOT** fit all and we will help you find the ideal tailor-made support solution. If you take one of our support packages there is **no** queuing system on the phone where you then wait forever for a call back - we shall give you your own technicians direct mobile number so the person you speak to, will know your system, and therefore be the best person to answer any questions or solve any problems.

- **NO EXTRA CHARGE** telephone support - just use your bank!
- **ONE SET RATE** - whether it is your Admin Department or Curriculum
- **NO ADDITIONAL CALL OUT CHARGES**
- **WEEKENDS OR EVENINGS** if that is what you prefer (prices available on request)

## Wonderful Websites

[www.headlinehistory.co.uk](http://www.headlinehistory.co.uk)

KS2 Explore historical newspapers packed with true stories and find out about grim and gruesome facts. Interview famous characters from history. Write your own front page stories. Discover hidden surprises including sound and film. A really good fun interactive website which will transform lessons.

[www.teachers.tv/video/1447](http://www.teachers.tv/video/1447)

Two primary teachers have devised an initiative aimed at waking up pupils on sleepy afternoons. They put together a series of exercises and games designed to give the children a break after lunch, and even mid-lesson. Some are pulse-raising, whilst others focus on co-ordination and concentration. All of the exercises and games have produced positive results in terms of attainment and self esteem.

**Print, colour and wear your very own dragon mask**

Copy and paste the following url and then print off for the children to have some fun with.

## SMART STEP UP

**ONLY £215.00** exc. VAT

The step makes class interaction easier, enabling young pupils to interact more fully with the whiteboard, ensuring that teaching and learning objectives can be met for each pupil. The large platform surface area, means that more than one pupil at a time can safely use the product. Having been designed with the classroom and safety in mind, the step sits securely under any interactive whiteboard and then it can be folded away neatly when it is not in use. The step has a total height of 300mm (12") and is coated in a non-slip rubber surface. Its durability means that this product will last long after the pupils who benefit from it have left.

**A MUST HAVE PRODUCT FOR ANY PRIMARY SCHOOL**

## WANT A WEBSITE?

Would you like us to build your school a website that is easy for YOU to maintain, add to and change? We can do that for **UNDER £500** which even includes a half day training session at your chosen location.

# Agile's Answers

## LSA ICT Support

We don't just offer technical support for our schools, we are able to let schools buy teaching support by the hour as well  
*Have one of our staff come in and show your Year 2's how to start off with MS Word or show your Year 4's how to turn their photograph into a unique picture or greeting card, you can show your Year 6's how to create movies and edit them with sound and text before burning to disc - want to do something different but just don't have the time?*  
**We can help!**
