Appropriate Filtering and User Reporting

As part of the DofE statutory guidance 'Keeping Children Safe in Education', schools are obligated to "ensure appropriate filters and appropriate monitoring systems are in place. Children shouldn't access harmful or inappropriate material on the school's IT system" however, schools will need to "be careful that "over-blocking" does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding." **This is what Agile Internet can achieve for your school.**
